

Sufyan Menk

Seeking to expand my knowledge of Computer Science, gain industry experience and have fun along the way.

Technical Skills

- Programming languages: Java, C, C++, Objectives-C, Python, MySQL, HTML, CSS, JavaScript, PHP.
- I am very detail oriented, organized, and have a good work ethic.
- Experienced in Xcode, IntelliJ / PyCharm IDEA, Oracle SQL Developer, JavaFX, and the Microsoft Office Suite.
- Operating Systems: Windows, OSX, Linux.

Work Experience

Chicago Public Schools HQ

Chicago IL

Internship

June 2013 – August 2013

- My responsibilities included assisting with the transition from the old CPS website to the new one. I siphoned through hundreds of old files and prioritized, which files needed to be kept. Another responsibility I had was to make website templates for schools that could be used easily and result in a professional website. I produced tutorial videos on how to install and use the templates.

Projects

View on App Store

Makki Masjid Chicago iOS Application (v1.1.0)

- Developed this application to help my local mosque get information to their members. It includes prayer times, news, and contact information about the mosque. As of Feb. 14th, 2017, the app has 500+ downloads.

Website Overhaul

MakkiMasjid.com

- During my 2016 winter break I redesigned Makki Masjid's website. Before and after picture on my website.

Online Invoice Manager

Bmappliances.com

- During my 2015 winter break I developed an online invoice manager for my uncle's small business. More info on my website.

Education

- Illinois Institute of Technology
