## Technical Skills

- Programming languages: Java, C, C++, Objectives-C, Python, MySQL, Bootstrap, HTML, CSS, JavaScript, PHP, Clojure, and Haskell.
- I am very detail oriented, organized, and have a good work ethic.
- Experienced in Xcode, Intellj IDEA, Oracle SQL Developer, JavaFX, and the Microsoft Office Suite.
- Operating Systems: Windows, OSX, Linux.

## Work Experience

Chicago Public Schools HQ                                    Chicago IL

*Internship*                                    June 2013 – August 2013

- My responsibilities included assisting with the transition from the old CPS website to the new one. I siphoned through hundreds of old files and prioritized, which files needed to be kept. Another responsibility I had was to make website templates for schools that could be used easily and result in a professional website. I produced tutorial videos on how to install and use the templates.

## Projects

View on App Store

Makki Masjid Chicago iOS Application (v1.0.9)

- Developed this application to help my local mosque get information to their members. It includes prayer times, news, and contact information about the mosque. As of March 31$^{st}$, 2016, the app has 300+ downloads. I am still releasing updates to the app on a regular basis, and have plans to make an Android version soon.

Online Invoice Manager                                    Bmappliances.com

- During my winter break I developed an online invoice manager for my uncle's small business. His specifications listed:
  - A mobile friendly and easy to use interface,
  - Ability to view, print, and email invoices,
  - Ability to view monthly reports,
  - Ability to add new invoices easily, and quickly.

To satisfy all these specs I used the Bootstrap framework, PHP5, MySQL, HTML5 and CSS3.

## Education

- **Illinois Institute of Technology**                                    Expected to graduate in 2017
  - Bachelor of Science in Computer Science
  - 4 time on the dean's list
  - Current GPA: 3.6
- Northside College Prep. High School                                    Graduated in 2013
  - GPA: 3.6
